

# Guide on how to install YouTube MP3 Downloader

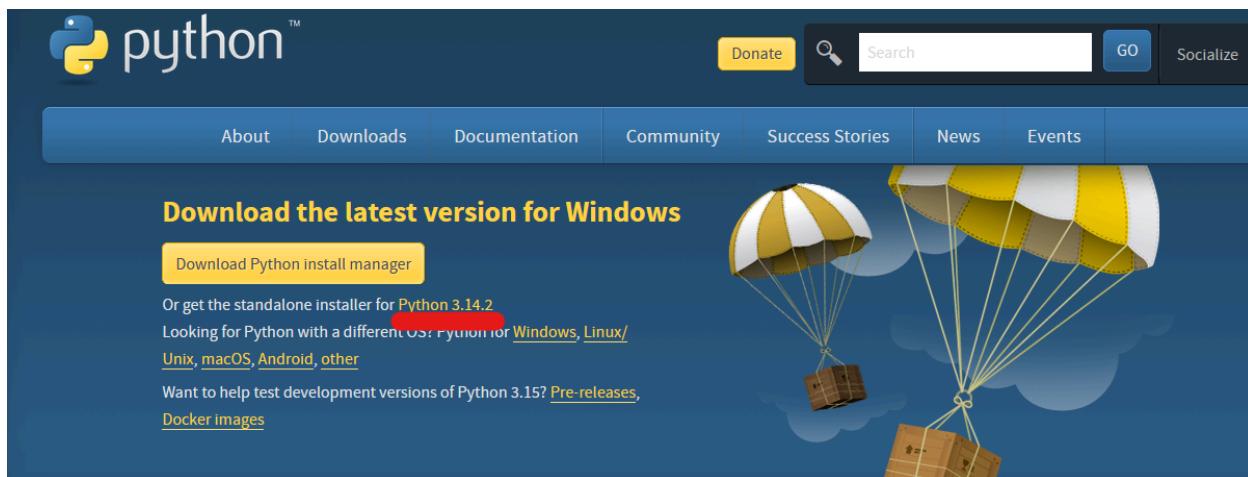

Requirements:

[Python 3.10+](#)

[FFMPEG](#)

How to install python:

Press the link above and download python, the version MUST BE above 3.10 (recommended 3.14.x)

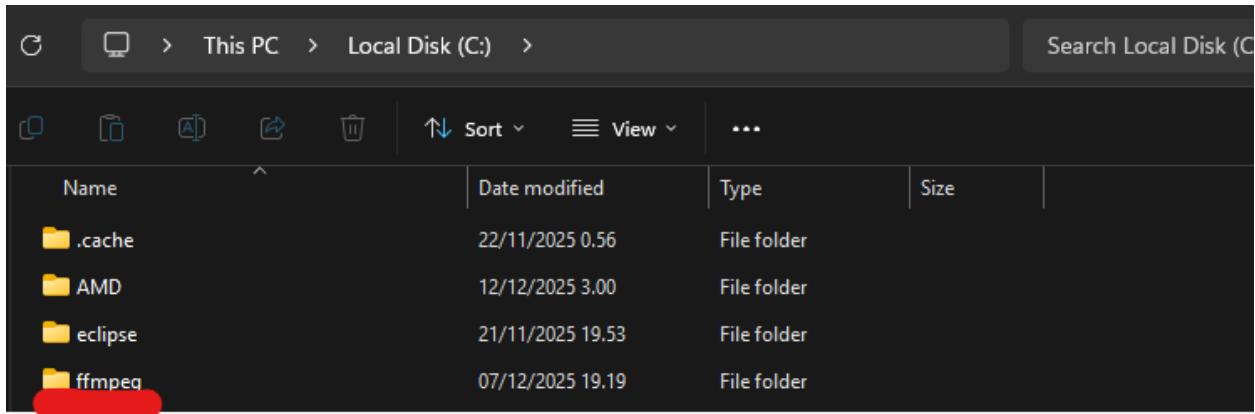

Press the highlighted link and proceed with the installation

After installation lets move to FFMPEG installation, again press the link above and go to the FFMPEG site

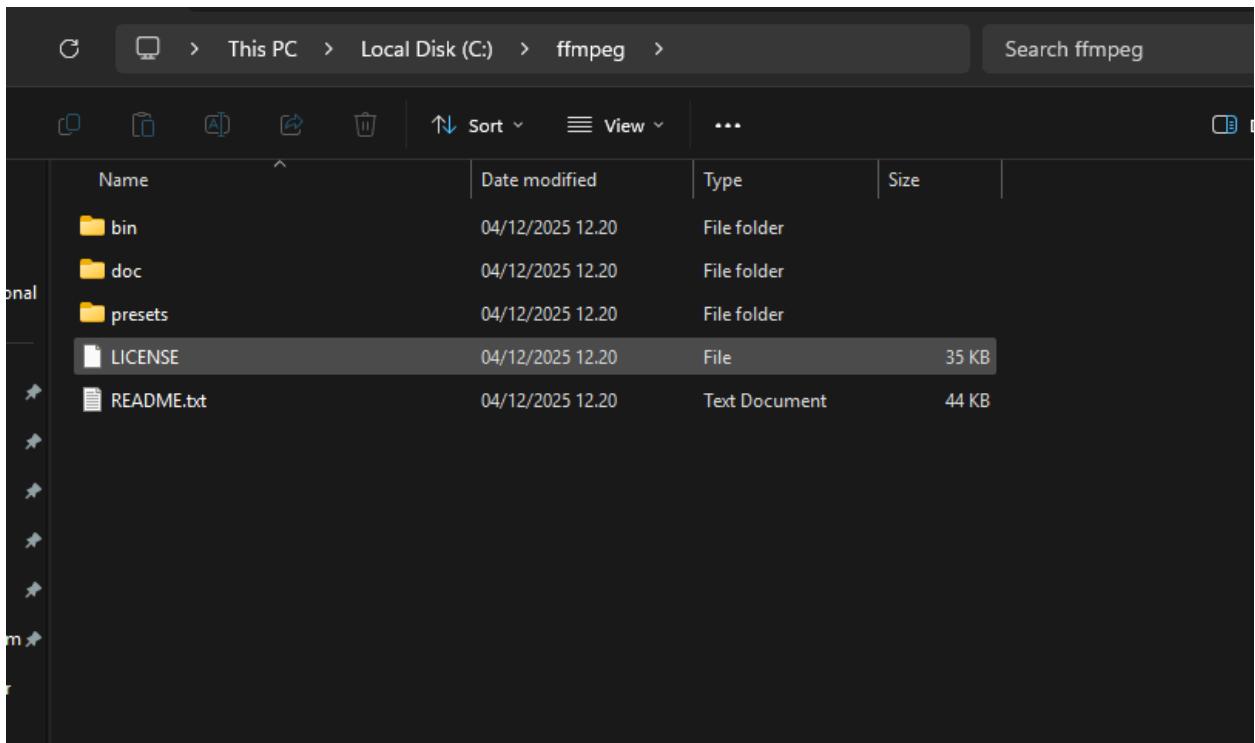

Press the highlighted name and wait for it to download

Next open the file manager and go to a location (preferably root of your C drive) where you wont delete stuff and create a folder named “ffmpeg”

Open the folder and extract the downloaded FFMPEG build and extract it inside the folder so that the bin file is inside the created folder

The inside of the folder should look like this

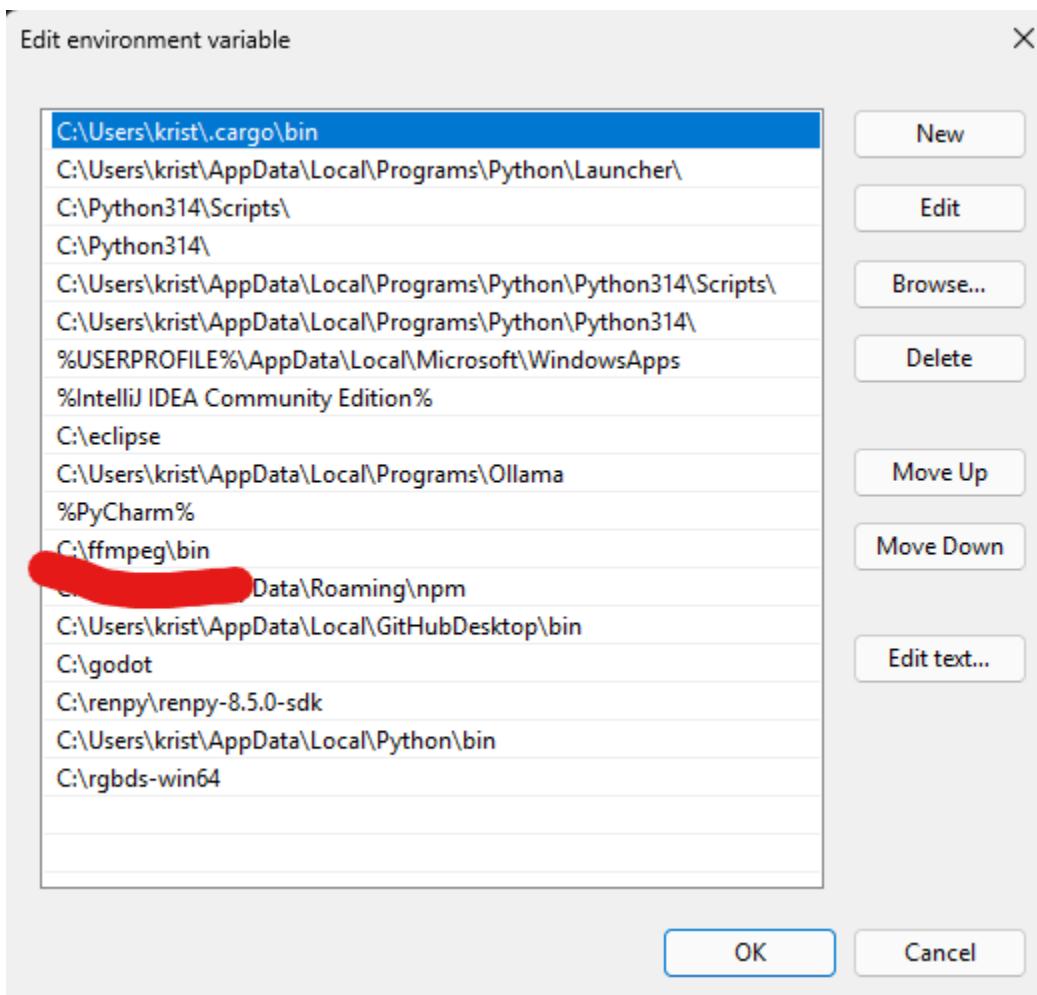

Go inside the “bin” folder and copy the folder path, next we are going to add the folder location to path.

In windows search for “environment variables” and open “Edit system environment variables”

User variables for krist	
Variable	Value
ChocolateyLastPathUpdate	134096054210427423
IntelliJ IDEA Community Edit...	C:\Program Files\JetBrains\IntelliJ IDEA Community Edition 2025.2.4...
OneDrive	C:\Users\krist\OneDrive
OneDriveConsumer	C:\Users\krist\OneDrive
Path	C:\Users\krist\.cargo\bin;C:\Users\krist\AppData\Local\Programs\P...
PyCharm	C:\Users\krist\Pycharm
TEMP	C:\Users\krist\AppData\Local\Temp

[New...](#) [Edit...](#) [Delete](#)

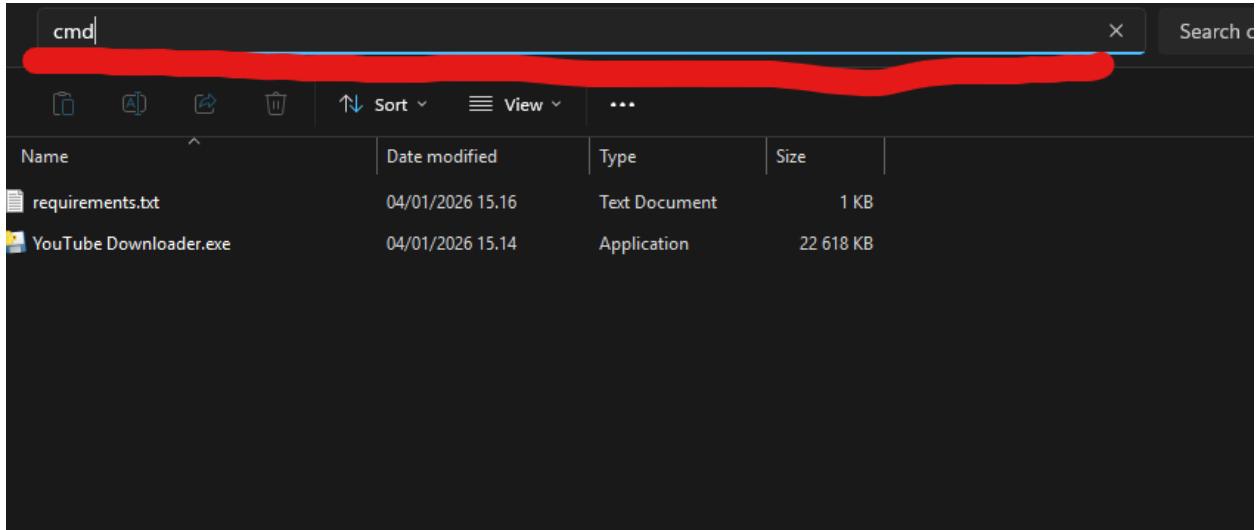

Inside “User variables for USER” double click on the “Path” variable and inside add the ffmpeg folder at the end

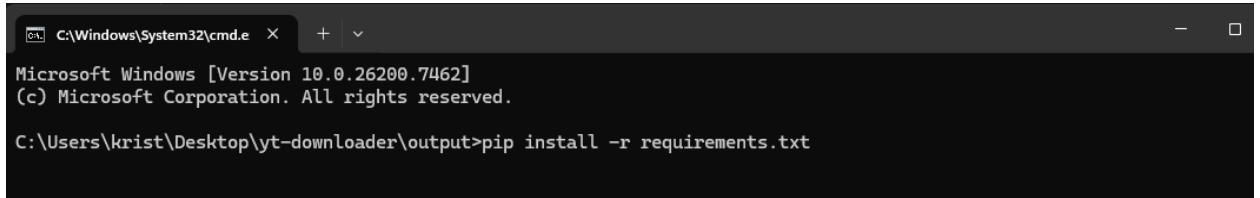

So the location should be (assuming you put the ffmpeg in the root of C) “C:\ffmpeg\bin”

Now you can just exit by pressing “OK”

Next go to the yt mp3 downloader folder with the requirements.txt and open a cmd inside the folder by pressing on the area where the path is shown and typing “cmd” and pressing enter

Next we are going to install requirements so, in the terminal type “pip install -r requirements.txt” and press enter

After that has ran you can run the .exe file inside of the folder and it should work.
